

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Curtis W. Shaw
DOCKET NO.: 17-21023.001-R-1
PARCEL NO.: 02-17-307-006-0000

The parties of record before the Property Tax Appeal Board are Curtis W. Shaw, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,214
IMPR.: \$21,620
TOTAL: \$25,834

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame exterior construction with 864 square feet of living area. The dwelling is approximately 57 years old. Features of the home include a full unfinished basement and a two-car garage. The property has a 28,096 square foot site and is located in Inverness, Palatine Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property.¹ The comparables are improved with 1-story or 1.5-story dwellings of frame exterior construction that

¹ The appellant's attorney provided limited information regarding the features of the comparables such as the number of fireplaces, basement descriptions and whether or not the properties have a garage. However, the Board finds this will not prevent the Board from making a determination based on the evidence presented by both parties.

have from 771 to 988 square feet of living area. The dwellings range in age from 67 to 93 years old. In the grid analysis, the appellant's attorney reported "unfinished" for each comparable within the "finished basement" section, "yes" for one comparable within the air conditioning section, and "yes" for one comparable in the fireplace section. The comparables have improvement assessments ranging from \$17,475 to \$21,178 or from \$20.79 to \$22.67 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$18,671 or \$21.61 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,834. The subject property has an improvement assessment of \$21,620 or \$25.02 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on two equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 1-story or 1.5-story dwellings of frame or frame and masonry exterior construction that have 775 and 894 square feet of living area. The dwellings are 56 or 65 years old, one comparable has a full finished basement, and one comparable has a concrete slab foundation. Each comparable has a fireplace and a 2-car or a 4-car garage. The comparables have improvement assessments of \$19,398 and \$28,812 or \$25.03 and \$32.23 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3 and #4 because they have dwellings considerably older in age when compared to the age of the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 as well as the board of review two comparables. The Board gives greater weight to these three comparables because they are closer in age to the subject and are similar in other features, except the board of review comparable #1 has an inferior concrete slab foundation which would require an upward adjustment in contrast to the subject's full basement. These three comparables have improvement assessments ranging from \$21,178 to \$28,812 or from \$21.44 to \$32.23 per square foot of living area. The subject's improvement assessment of \$21,620 or \$25.02 per square foot of living area falls within the range established by the best comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the

subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
