

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Theresa Longoria
DOCKET NO.: 17-21083.001-R-1
PARCEL NO.: 02-36-308-007-0000

The parties of record before the Property Tax Appeal Board are Theresa Longoria, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,793
IMPR.: \$15,583
TOTAL: \$18,376

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame exterior construction with 997 square feet of living area. The dwelling is 60 years old. Features of the home include a full basement and a two-car garage. The property has a 9,312 square foot site and is located in Rolling Meadows, Palatine Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with one-story dwellings of frame exterior construction ranging in size from 861 to 966 square feet of living area. The dwellings are 61 or 62 years old. The appellant reports in the grid analysis that one comparable has a "Partial" basement area. The appellant did not indicate in the grid analysis whether any of the comparables have a garage.

The comparables have improvement assessments ranging from \$1,256 to \$11,847 or from \$1.46 to \$13.54 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$11,984 or \$12.02 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,376. The subject property has an improvement assessment of \$15,583 or \$15.63 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code, same block, and/or street as the subject property. Like the subject, each comparable features a 60-year old, one-story dwelling of frame exterior construction with 997 square feet of living area, a full basement, and a one-car or a two-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$17,281 to \$18,419 or from \$17.33 to \$18.47 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. When compared to the subject property, the Board gives reduced weight to the appellant's comparables, which have varying degrees of dissimilarity in property characteristics to the subject property, when the board of review has comparables practically identical to the subject in nearly every aspect.

The Board finds the best evidence of assessment equity to be the board of review comparables. The Board gives greater weight to these comparables because they are located on the subject's same street, as well as being nearly identical to the subject in age, dwelling size, and most property characteristics. These comparables have improvement assessments ranging from \$17,281 to \$18,419 or from \$17.33 to \$18.47 per square foot of living area. The subject's improvement assessment of \$15,583 or \$15.63 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
