

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Ippolito
DOCKET NO.: 17-21232.001-R-1
PARCEL NO.: 15-26-125-005-0000

The parties of record before the Property Tax Appeal Board are Charles Ippolito, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,653
IMPR.: \$ 17,355
TOTAL: \$ 23,008

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject consists of a one and one-half-story dwelling of masonry construction with 1,384 square feet of living area. The dwelling is 69 years old. Features of the home include a full basement with a formal recreation room, central air conditioning, a fireplace, and a two-car garage. The property has a 7,067 square foot site, and is located in North Riverside, Riverside Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance. No evidence was submitted as to whether the subject was owner occupied.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted cursory information on four equity comparables. This information included the comparable properties' PIN, improvement assessment, and improvement size. The appellant asserts that these four comparables are all class 2-03 properties

located in the same Assessor designated neighborhood in Riverside Township. No further information was included regarding these comparables, and Section V – Comparable Sales/Assessment Grid Analysis of the Board’s residential appeal form was left blank, except to say “see attached.”

The appellant also contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted cursory sales information for nine sale comparables, which sold from January 2016 to October 2017 for \$155,000 to \$205,000. These comparables improvement sizes were not disclosed, and Section V – Comparable Sales/Assessment Grid Analysis of the Board’s residential appeal form was left blank, except to say “see attached.” Based on this evidence, the appellant requested a reduction in the subject’s assessment to \$17,653.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,008. The subject property has an improvement assessment of \$17,355, or \$12.54 per square foot of living area. The subject's assessment reflects a market value of \$230,080, or \$166.24 per square foot of living area, including land, when applying the 2017 statutory level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10.00%.

In support of its contention of the correct assessment, the board of review submitted information on eight equity comparables and four sale comparables.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value to be board of review comparables #5, #7, and #8. These comparables sold for prices ranging from \$179.05 to \$221.07 per square foot of living area, including land. The subject's assessment reflects a market value of \$166.24 per square foot of living area, including land, which is below the range established by the best comparables in this record. The appellant’s nine sale comparables were given no weight in the Board’s analysis, as the appellant’s submission did not disclose certain pertinent information regarding these comparables, such as their design/stories, exterior construction, and improvement size. Based on this record, the Board finds the appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is not justified.

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject

property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, #3, #4, #5, #7, and #8. These comparables had improvement assessments that ranged from \$12.82 to \$15.56 per square foot of living area. The subject's assessment of \$12.54 per square foot of living area falls below the range established by the best comparables in this record. The appellant's four equity comparables were given no weight in the Board's analysis, as the appellant's submission did not disclose certain pertinent information regarding these comparables, such as their design/stories, exterior construction, and age. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed, and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
