

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Arthur Nanus
DOCKET NO.: 17-21287.001-R-1
PARCEL NO.: 05-32-200-152-0000

The parties of record before the Property Tax Appeal Board are Arthur Nanus, the appellant, by attorney Scott L. David, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,192
IMPR.: \$50,129
TOTAL: \$60,321

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry construction with 2,929 square feet of living area. The dwelling is 52 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 2-car garage. The property has a 9,707 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal.¹ In support of this argument the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are 2-story, class 2-78, dwellings of frame and masonry construction that range in

size from 2,928 to 3,201 square feet of living area. The homes range in age from 48 to 55 years old and have partial basements, one of which has finished area. Other features include central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$39,854 to \$45,966 or from \$13.61 to \$15.11 per square foot of living area.

Based on this evidence the appellant requested that the subject's total assessment be reduced to \$52,268.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$60,321. The subject property has an improvement assessment of \$50,129 or \$17.11 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code and on the same block as the subject. The comparables are 2-story, class 2-78, dwellings of frame and masonry construction that range in size from 2,297 to 2,607 square feet of living area. The homes range in age from 50 to 56 years old and have full unfinished basements. Other features include central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$51,805 to \$58,912 or from \$21.95 to \$22.65 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board finds all of the parties' comparables are similar to the subject in location, style and age. However, the appellant's comparables lack a full basement, unlike the subject, and the board of review's comparables are smaller than the subject. Nevertheless, the parties' comparables have improvement assessments ranging from \$39,854 to \$58,912 or from \$13.61 to \$22.65 per square foot of living area. The subject's improvement assessment of \$50,129 or \$17.11 per square foot of living area falls within the range established by the comparables in the record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
