

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Louis Spentzos  
DOCKET NO.: 17-21814.001-R-1  
PARCEL NO.: 01-27-101-026-0000

The parties of record before the Property Tax Appeal Board are Louis Spentzos, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 10,105  
**IMPR.:** \$ 68,153  
**TOTAL:** \$ 78,258

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

**Findings of Fact**

The subject consists of a two-story dwelling of masonry construction with 4,668 square feet of living area. The dwelling is 34 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces, and a three-car garage. The property's site is 57,747 square feet, and it is located in Barrington Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance. No evidence was submitted as to whether the subject is owner-occupied.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on November 30, 2016 for a price of \$337,000, or \$72.19 per square foot of living area. The settlement statement submitted by the appellant lists The Bank of New York Mellon as the seller. Additionally, in

Section IV – Recent Sale Data, the appellant stated that the sale was a “Bank owned REO sale.” Based on this evidence, the appellant requested a reduction in the subject’s assessment to \$33,127 after applying 2016 Illinois Department of Revenue three-year average median level of assessment for class 2 property of 9.83%.

The board of review submitted its “Board of Review Notes on Appeal” disclosing that the total assessment for the subject is \$78,258. The subject’s assessment reflects a market value of \$782,580, or \$167.65 per square foot of living area, including land, when applying the 2017 statutory level of assessment for class 2 property of 10.00% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables, and four sale comparables. These sale comparables sold from July 2014 to July 2016 for \$722,500 to \$880,000, or \$175.79 to \$200.09 per square foot of living area, including land.

In rebuttal, the appellant argued that the board of review’s comparables were not similar to the subject for various reasons. The appellant also requested that the 2017 Illinois Department of Revenue three-year average median level of assessment for class 2 property of 9.40% be used in determining the subject’s assessment, as the 2017 figure was recently released by the Illinois Department of Revenue.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the value of the property must be proven by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof, and a reduction in the subject’s assessment is not warranted.

Initially, the Board finds that the statutory level of assessment for class 2 property found in the Cook County Real Property Assessment Classification Ordinance of 10.0% is applicable in this appeal. The appellant has not provided any evidence or argument to justify using the 2017 Illinois Department of Revenue three-year average median level of assessment for class 2 property of 9.40%. As such, the Board will use the statutory level of assessment of 10.0%.

The Board finds that the sale of the subject in November 2016 for a price of \$337,000 is a “compulsory sale.” A “compulsory sale” is defined as:

- (i) the sale of real estate for less than the amount owed to the mortgage lender or mortgagor, if the lender or mortgagor has agreed to the sale, commonly referred to as a “short sale” and
- (ii) the first sale of real estate owned by a financial institution as a result of a judgment of foreclosure, transfer pursuant to a deed in lieu of foreclosure, or consent judgment, occurring after the foreclosure proceeding is complete.

35 ILCS 200/1-23. The Board finds that the sale of the subject in November 2016 is a compulsory sale, in the form of a foreclosure, based on the settlement statement submitted by the appellant, which states that the seller was a financial institution, namely, The Bank of New York Mellon. See id.

Finding that the sale of the subject was a compulsory sale, the question then becomes whether the compulsory sale of the subject is an arm's-length transaction such that the sale price reflects the subject's fair cash value. Indeed, "a contemporaneous sale between parties dealing at arm's-length is not only relevant to the question of fair cash market value, [citations] but would be practically conclusive on the issue of whether an assessment was at full value." People ex rel. Korzen v. Belt Ry. Co. of Chicago, 37 Ill.2d 158, 161 (1967). However, "[i]n order for the sale price of property to be used as the market value, the transaction must be between a willing buyer and a willing seller, neither of whom are under compulsion to buy or sell, and no account should be taken of values or necessities peculiar to either party." Id. at 164 (citing City of Chicago v. Harrison-Halsted Building Corp., 11 Ill.2d 431 (1957); Ligare v. Chicago, Madison and Northern Railroad Co., 166 Ill. 249 (1897); and City of Chicago v. Farwell, 286 Ill. 415 (1918), overruled on other grounds by Forest Preserve Dist. of Du Page County v. First Nat. Bank of Franklin Park, 2011 IL 110759). The appellant asserts that the sale of the subject was an arm's-length transaction, while the board of review contends that it is not.

In Calumet Transfer LLC v. Property Tax Appeal Bd., 401 Ill.App.3d 652 (1st Dist. 2010), the court upheld the Board's decision, wherein the Board allowed the intervenor to challenge the arm's-length nature of the sale of the property, through the submission of sale comparables, pursuant to Section 1910.65(c)(4) of the Official Rules of the Property Tax Appeal Board. Calumet Transfer, 401 Ill.App.3d at 655-56; 86 Ill.Admin.Code §1910.65(c)(4) ("[p]roof of the market value of the subject property may consist of the following: 4) documentation of not fewer than three recent sales of suggested comparable properties together with documentation of the similarity, proximity and lack of distinguishing characteristics of the sales comparables to the subject property."). Like the board of review here, the intervenor in Calumet Transfer argued that the seller was under duress to sell the property, and, therefore, the purchase price was below fair market value as evidenced by the comparable sales. Id. at 656. The court stated that, "There is no provision in the Property Tax Code that restricts [the Board's] authority to consider such evidence. To the contrary, paragraph (4) of section 1910.65(c) specifically allows evidence of comparable property sales to prove fair market value." Id.

In looking at the sale comparables submitted by the parties, the Board finds board of review sale comparables #1, #3, and #4 to be most similar to the subject. These sale comparables sold for prices ranging from \$175.79 to \$200.09 per square foot of living area, including land. The subject's sale price reflects a market value of \$72.19 per square foot of living area, including land, which is below the range established by the best comparables in this record. Therefore, the Board finds that the compulsory sale of the subject in November 2016 for a price of \$337,000 was below the subject's fair market value, and, therefore, was not an arm's-length transaction. As such, this sale has been given no weight in the Board's analysis. Since there is no other market value evidence proffered by the appellant, the Board finds that the appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
