

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tim Marcolini
DOCKET NO.: 17-22696.001-R-1
PARCEL NO.: 15-36-406-026-0000

The parties of record before the Property Tax Appeal Board are Tim Marcolini, the appellant, by attorney Abby L. Strauss of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,378
IMPR.: \$25,515
TOTAL: \$32,893

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story stucco dwelling with 1,667 square feet of living area. The dwelling is approximately 93 years old. Features of the home include a full unfinished basement, central air-conditioning, a fireplace, and a 2-car garage. The property has a 9,223 square foot site and is located in Riverside, Riverside Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four comparable properties located within the same neighborhood code as the subject property. The comparables consist of similar class 2-05 properties of stucco exterior construction. The dwellings were built from 86 to 107 years ago and range in size from 1,758 to 2,006 square feet of living area. According to the appellant's grid

analysis, the comparables each have a partial or full unfinished basement. Three comparables have central air-conditioning. One comparable has a fireplace. Each comparable has either a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$23,740 to \$27,081 or from \$13.00 to \$13.50 per square foot of living area.

Based on this evidence, the appellant requested that the subject's total assessment be reduced to \$29,616. The request would lower the subject's improvement assessment to \$22,238 or \$13.34 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,893. The subject has an improvement assessment of \$25,515 or \$15.30 per square foot of living area.

In support of its argument the board of review submitted information on three comparable properties located within the same neighborhood code and on the same block as the subject. The comparables are improved with similar class 2-05 stucco dwellings that were built from 92 to 112 years ago and range in size from 1,620 to 1,728 square feet of living area. Each comparable has a full basement, one with finished area, and a 2-car garage. Two comparables each have a fireplace. The comparables have improvement assessments that range from \$24,446 to \$30,441 or from \$14.87 to \$17.62 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity with respect to the improvement as a basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparable sales for the Board's consideration. The Board gives less weight to appellant's comparables #2 and #3 which differ from the subject in age or dwelling size and board of review comparable #2 which has a finished basement dissimilar to the subject.

The Board finds the best evidence of value to be appellant's comparables #1 and #4 and board of review comparables #1 and #3 which are similar to the subject property in location, age, design, and most features. These comparables had improvement assessments ranging from \$23,740 to \$30,441 or from \$13.00 to \$17.62 per square foot of living area. The subject's improvement assessment of \$25,515 or \$15.30 per square foot of living area falls within the range established by the best comparables submitted for the Board's consideration. After considering adjustments to the comparables for differences from the subject, the Board finds that the appellant did not

demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
