

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jan Oliszewicz  
DOCKET NO.: 17-22718.001-R-1  
PARCEL NO.: 22-28-411-040-0000

The parties of record before the Property Tax Appeal Board are Jan Oliszewicz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$16,744  
**IMPR.:** \$28,292  
**TOTAL:** \$45,036

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,804 square feet of living area. The dwelling is approximately 21 years old. Features of the home include a full unfinished basement, central air conditioning, one fireplace and a three-car garage. The property has a 29,121 square foot site located in Lemont, Lemont Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on nine equity comparables located in the same neighborhood code as the subject property. The comparables are improved with similar class 2-78 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,591 to 3,151 square feet of living area. The comparables

range in age from 19 to 41 years old. Eight comparables have an unfinished basement and one comparable has a concrete slab foundation. Each comparable has central air conditioning, one fireplace and a two-car to a three-car garage. The comparables have improvement assessments ranging from \$23,215 to \$28,141 or from \$8.08 to \$9.28 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$24,984 or \$8.91 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$45,036. The subject property has an improvement assessment of \$28,292 or \$10.09 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of frame and masonry exterior construction ranging in size from 2,939 to 3,268 square feet of living area. The comparables range in age from 20 to 24 years old. Each comparable has a full unfinished basement, central air conditioning, one fireplace and two-car or a three-car garage. The comparables have improvement assessments ranging from \$36,914 to \$39,627 or from \$11.47 to \$13.48 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted thirteen suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #5 due to its older age and inferior concrete slab foundation in contrast to the subject and its unfinished basement. The remaining comparables are similar to the subject property in location, design, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$23,215 to \$39,627 or from \$8.08 to \$13.48 per square foot of living area. The subject's improvement assessment of \$28,292 or \$10.09 per square foot of living area falls within the range of the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
