

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Stogin
DOCKET NO.: 17-22891.001-R-1
PARCEL NO.: 05-29-308-012-0000

The parties of record before the Property Tax Appeal Board are John Stogin, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$33,930
IMPR.: \$102,277
TOTAL: \$136,207

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 4,839 square feet of living area. The dwelling is approximately 81 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and a 2-car garage. The property has a 23,400 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant through counsel contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables were improved with Class 2-06 dwellings of masonry exterior construction that are 75 or 88 years old. Each comparable has a full basement with finished area, central air conditioning, one or two fireplaces and a 2-car or a 4-car garage. The dwellings range in size from 3,155 to 4,146 square feet of living area and have improvement assessments ranging from

\$59,976 to \$74,115 or from \$17.88 and \$19.01 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduce to \$88,505 or \$18.29 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$136,207. The subject property has an improvement assessment of \$102,277 or \$21.14 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables were improved with two-story dwellings of masonry or frame and masonry exterior construction that range in size from 4,754 to 4,910 square feet of living area and range in age from 70 to 88 years old. The comparables have either a full or partial basement with three comparables having finished area, three comparables have central air conditioning, each comparable has one to five fireplaces and a 2-car or 2.5-car garage. The comparables have improvement assessments that range from \$108,364 to \$124,073 or from \$22.07 to \$25.66 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #2 and #3 for smaller dwelling size when compared to the subject. The Board gave less weight to the board of reviews comparable #1 for lack of central air conditioning when compared to the subject.

The Board finds that the best evidence of assessment equity are the appellants comparable #1 along with the board of reviews comparables #2, #3 and #4. The comparables have varying degrees of similarity when compared to the subject in dwelling size, age, and features. These comparables have improvement assessments ranging from \$74,115 to \$124,073 or from \$17.88 to \$25.66 per square foot of living area. The subject property has an improvement assessment of \$102,706 or \$21.14 per square foot of living area, which falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
