

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Solomon
DOCKET NO.: 17-22892.001-R-1
PARCEL NO.: 05-07-209-013-0000

The parties of record before the Property Tax Appeal Board are David Solomon, the appellant by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$45,870
IMPR.: \$87,765
TOTAL: \$133,635

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,594 square feet of living area. The dwelling is approximately 94 years old. Features of the home include a full basement with finished area, central air conditioning, two fireplaces and a two-car garage. The property has a 20,850 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables were improved with similar Class 2-06 dwellings of masonry or frame and masonry exterior construction that are 91 or 94 years old. Each comparable has a full basement with two comparables having finished area, central air conditioning, one to five fireplaces and a two-car garage. The dwellings range in size from 3,432 to 4,891 square feet of living area and have

improvement assessments ranging from \$81,235 to \$102,270 or from \$20.91 to \$23.83 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$81,943 or \$22.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$133,635. The subject property has an improvement assessment of \$87,765 or \$24.42 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables were improved with two-story dwellings of masonry exterior construction that range in size from 3,485 to 4,398 square feet of living area and are 83 or 86 years old. Each comparable has a full basement with two comparables having finished area, two comparables have central air conditioning, each comparable has one to three fireplaces and each comparable has a two-car garage. The comparables have improvement assessments that ranged from \$105,079 to \$128,207 or from \$27.21 to \$36.79 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six comparables for the Boards consideration. The Board gave less weight to the appellants comparables #1 and #3 along with the board of reviews comparable #3 based on these properties larger dwelling size when compared to the subject.

The Board finds that the best evidence of assessment equity are the appellants comparable #2 along with the board of reviews comparables #1 and #2 . These comparables have varying degrees of similarity when compared to the subject in age, dwelling size and some features. These comparables have improvement assessments that range from \$81,235 to \$128,207 or from \$23.67 to \$36.79 per square foot of living area. The subject property has an improvement assessment of \$87,765 or \$24.42 per square foot of living area, which falls within the range established by the comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
