Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 4,982 square feet of living area. The dwelling is approximately 128 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 3.5-car garage. The property has a 23,710 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 and 2-41 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal concerning the improvement. In support of this argument, the appellant submitted information on three equity comparables located within the same neighborhood code as the subject property. The comparables consist of class 2-06 dwellings of stucco or frame and masonry exterior construction. The dwellings are either 63 or 98 years old and range in size from 2,768 to 3,600

square feet of living area. Two comparables have full and partial unfinished basements, respectively, and one comparable has a concrete slab foundation. Each dwelling features a central air conditioning, one or two fireplaces and either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$43,101 to \$55,240 or from \$14.80 to \$15.57 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total combined assessment for the subject of \$112,615. The subject property has an improvement assessment of \$82,819 or \$16.62 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables consist of two-story class 2-06 dwellings of frame, masonry or frame and masonry exterior construction. The dwellings range in age from 64 to 93 years old and range in size from 4,298 to 4,949 square feet of living area. Three comparables have full basements, one of which has a formal recreation room, and one comparable has a concrete slab foundation. Three of the dwellings feature a central air conditioning and each comparable has two or four fireplaces and a two-car garage. The comparables have improvement assessments ranging from \$79,986 to \$95,367 or from \$18.61 to \$19.33 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables and to board of review comparable #1 due to differences in dwelling size and/or foundation type when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #2, #3 and #4 which present varying degrees of similarity to the subject, including foundation type and dwelling size. These comparables had improvement assessments that ranged from \$84,472 to \$95,367 or from \$19.15 to \$19.33 per square foot of living area. The subject's improvement assessment of \$82,819 or \$16.62 per square foot of living area falls below the range established by the best comparables in this record which appears to be logical, in part, given that the subject is older than each of the best comparables. Based on this record and after considering adjustments to the best comparables, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
