

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tor Solberg  
DOCKET NO.: 17-22901.001-R-1  
PARCEL NO.: 05-16-103-007-0000

The parties of record before the Property Tax Appeal Board are Tor Solberg, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$59,155  
**IMPR.:** \$96,556  
**TOTAL:** \$155,711

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame exterior construction with 4,413 square feet of living area. The dwelling is approximately 127 years old. Features of the home include a partial unfinished basement, central air conditioning, six fireplaces, and a 1.5-car garage. The property has a 30,336 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject dwelling is classified as a Class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with Class 2-06 dwellings of frame exterior construction ranging in size from 2,646 to 4,998 square feet of living area. The dwellings range in age from 99 to 160

years old. Three comparables each have central air conditioning. Each comparable has a partial or full unfinished basement, one or two fireplaces, and a 2-car, a 2.5-car, or a 3-car garage. The comparables have improvement assessments ranging from \$47,668 to \$104,458 or from \$18.02 to \$20.90 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$86,098 or \$19.51 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$155,711. The subject property has an improvement assessment of \$96,556 or \$21.88 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with Class 2-06 dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 4,076 to 4,826 square feet of living area. The dwellings range in age from 78 to 103 years old. Each comparable has a partial or full unfinished basement, central air conditioning, two or four fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$101,900 to \$128,121 or from \$25.00 to \$27.06 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board recognizes six comparables have considerably newer dwellings and one comparable has a considerably older dwelling when compared to the subject. The Board gives less weight to the appellant's comparables #1, #3 and #4 as well as the board of review comparable #3 due to their significantly dissimilar dwelling sizes when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and the board of review comparables #1 and #2 because they are closer in dwelling size to the subject dwelling. Despite the dwellings' newer ages, these comparables are also similar to the subject in other features. However, the Board gives most weight to the board of review comparable #1 that is the only comparable identical in size to the subject dwelling. These three comparables have improvement assessments ranging from \$84,239 to \$119,416 or from \$18.53 to \$27.06 per square foot of living area. The subject's improvement assessment of \$96,556 or \$21.88 per square foot of living area falls at the lower end of the range established by the three most similar comparables in this record. In addition, the subject's improvement assessment falls below the board of review comparables #1 and #2, which is justified considering the subject's older age.

After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
