

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry and Janice Kahn  
DOCKET NO.: 17-22906.001-R-1  
PARCEL NO.: 05-27-300-041-0000

The parties of record before the Property Tax Appeal Board are Larry and Janice Kahn, the appellants, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$22,800  
**IMPR.:** \$125,134  
**TOTAL:** \$147,934

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 4,948 square feet of living area. The dwelling is approximately 91 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces, and a two-car garage. The property has a 12,000 square foot site and is located in Kenilworth, New Trier Township, Cook County. The subject dwelling is classified as a Class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with Class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 3,822 to 4,112 square feet of living area. The dwellings range

in age from 87 to 112 years old. Each comparable has a full basement with two having finished area, one or four fireplaces, and a two-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$93,142 to \$100,875 or from \$23.23 to \$24.53 per square foot of living area. Based on this evidence, the appellants requested that the subject's improvement assessment be reduced to \$118,950 or \$24.04 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$147,934. The subject property has an improvement assessment of \$125,134 or \$25.29 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and same block as the subject property. The comparables are improved with Class 2-06 dwellings of masonry exterior construction ranging in size from 3,792 to 4,328 square feet of living area. The dwellings range in age from 75 to 90 years old. Three comparables each have central air conditioning. Each comparable has a partial or full basement with one having finished area, one to four fireplaces, and a two-car garage. The comparables have improvement assessments ranging from \$99,459 to \$130,619 or from \$25.76 to \$32.61 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. Both parties comparables have considerably smaller dwelling sizes when compared to the subject's dwelling. The Board gives less weight to the appellants' comparable #2 and the board of review comparables #1 through #3 due to their significant dissimilarities in the dwellings' ages and/or smaller dwelling sizes when compared to the subject dwelling

The Board finds the best evidence of assessment equity to be both parties' remaining comparables. The Board gives greater weight to these three comparables because they are closer to the subject in age and dwelling size than the other comparables and are also similar in other property characteristics to the subject property. These three comparables have improvement assessments ranging from \$94,881 to \$130,619 or from \$23.23 to \$30.18 per square foot of living area. The subject's improvement assessment of \$125,134 or \$25.29 per square foot of living area falls within the range established by the three best comparables in this record. After considering adjustments for differences in both parties' comparables, such as their smaller dwelling sizes, the Board finds the appellants did not demonstrate with clear and convincing

evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
