

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jil Greenbaum
DOCKET NO.: 17-22917.001-R-1
PARCEL NO.: 04-01-400-039-0000

The parties of record before the Property Tax Appeal Board are Jil Greenbaum, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$38,139
IMPR.: \$100,552
TOTAL: \$138,691

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 5,349 square feet of living area. The dwelling is approximately 7 years old. Features of the home include a full basement with finished area, central air conditioning and a 3.5-car garage. The property has a 33,165 square foot site located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-04 dwellings of masonry exterior construction ranging in size from 2,909 to 3,130 square feet of living area. The dwellings range in age from 60 to 63

years old. The comparables have partial or full basements with finished area, central air conditioning, one or two fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$48,406 to \$51,258 or from \$16.17 to \$16.85 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$88,526 or \$16.55 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$138,691. The subject property has an improvement assessment of \$100,552 or \$18.80 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four comparables that are located within the same neighborhood code as the subject property. The comparables are improved with one-story dwellings of masonry or stucco exterior construction ranging in size from 3,022 to 3,604 square feet of living area. The dwellings range in age from 1 to 36 years old. Two comparables have full unfinished basements and two comparables have concrete slab foundations. Each comparable has central air conditioning, one fireplace and a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$60,423 to \$79,472 or from \$18.80 to \$22.05 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board finds that all of the comparables submitted by the parties differed substantially from the subject in story height, age, dwelling size, basement and/or some features. Although none of the comparables were particularly similar to the subject, the Board notes that all of the comparables submitted had improvement assessments that ranged from \$48,406 to \$79,472 or from \$16.17 to \$22.05 per square foot of living area. The subject's improvement assessment of \$100,552 or \$18.80 per square foot of living area falls within the range established by the parties' comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
