

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Iain Macintosh
DOCKET NO.: 17-22937.001-R-1
PARCEL NO.: 05-28-206-014-0000

The parties of record before the Property Tax Appeal Board are Iain Macintosh, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$37,114
IMPR.: \$99,408
TOTAL: \$136,522

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame and masonry exterior construction with 3,644 square feet of living area. The dwelling is approximately 87 years old. Features include a full unfinished basement, central air conditioning, one fireplace, and a two-car garage. The subject is located in Kenilworth, New Trier Township, Cook County. It is classified as a Class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with Class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 3,822 to 4,084 square feet of living area. The dwellings range

in age from 72 to 112 years old. Features include a full finished basement, one to four fireplaces, and a two-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$93,142 to \$95,969 or from \$23.23 to \$24.55 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$87,638 or \$24.05 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$136,522. The subject property has an improvement assessment of \$99,408 or \$27.28 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with Class 2-06 dwellings of frame and masonry exterior construction ranging in size from 3,806 to 4,015 square feet of living area. The dwellings range in age from 78 to 93 years old. Each comparable has a partial or full basement with two having finished area, one or two fireplaces, and a two-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$104,817 to \$115,680 or from \$27.54 to \$30.00 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven comparables for the Board's consideration. The Board gives less weight to appellant's comparables and the board of review comparables #2 and #3 due to differences in the dwellings' ages and/or finished basement area when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review's remaining comparables. These two comparables are most similar in overall property characteristics to the subject property and have an unfinished basement, like the subject property. These two comparables have improvement assessments of \$104,817 and \$114,765 or \$27.54 and \$29.91 per square foot of living area, respectively. The subject's improvement assessment of \$99,408 or \$27.28 per square foot of living area falls below the range established by the two best comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
