

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carolyn Baba  
DOCKET NO.: 17-23002.001-R-1  
PARCEL NO.: 05-18-203-014-0000

The parties of record before the Property Tax Appeal Board are Carolyn Baba, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$13,536  
**IMPR.:** \$66,290  
**TOTAL:** \$79,826

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 3,298 square feet of living area. The dwelling is 87 years old. Features of the home include a full unfinished basement, central air conditioning, and a fireplace. The property has an 8,460 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 2,649 to 3,472 square feet of living area. The dwellings are each 89 years old and have a partial or a full unfinished

basement. Two comparables have central air conditioning. Each comparable has one or two fireplaces and a two-car garage. The comparables have improvement assessments ranging from \$53,080 to \$70,960 or from \$19.81 to \$20.44 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$66,290 or \$20.10 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$86,323. The subject property has an improvement assessment of \$72,787 or \$22.07 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 2,626 to 3,898 square feet of living area. The dwellings range in age from 87 to 98 years old. Each comparable has a partial or a full basement with one having finished area. Two comparables have central air conditioning. Each comparable has one to four fireplaces and either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$62,026 to \$94,427 or from \$23.62 to \$30.54 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 and the board of review's comparables due to their dissimilar dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #3 as they are most similar to the subject in location, design, exterior construction, age, dwelling size, basement and most features, except each comparable has a two-car garage in contrast to the subject which lacks a garage. These two comparables have improvement assessments of \$64,920 or \$70,960 and \$19.81 or \$20.44 per square foot of living area, respectively. The subject's improvement assessment of \$72,787 or \$22.07 per square foot of living area exceeds the assessments of the two best comparables in this record and is not supported. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
