

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bradley Rendell
DOCKET NO.: 17-23065.001-R-1
PARCEL NO.: 05-20-317-005-0000

The parties of record before the Property Tax Appeal Board are Bradley Rendell, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,900
IMPR.: \$108,150
TOTAL: \$140,050

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 5,150 square feet of living area. The dwelling is approximately 67 years old. Features of the home include a crawl space foundation, central air conditioning, three fireplaces and a 2-car garage. The property has a 22,000 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 5,011 to 7,362 square feet of living area. The comparables range in age from 64 to 89

years old. Each comparable has a partial or a full basement with one having finished area. Each comparable has central air conditioning and a 2-car or a 2.5-car garage. Two comparables have either two or three fireplaces. The comparables have improvement assessments ranging from \$93,524 to \$144,936 or from \$18.66 to \$19.71 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$99,653 or \$19.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$143,464. The subject property has an improvement assessment of \$111,564 or \$21.66 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of masonry, stucco or frame and masonry exterior construction ranging in size from 5,160 to 5,443 square feet of living area. The comparables range in age from 61 to 69 years old. Each comparable has a partial or a full basement with three having finished area. Each comparable has central air conditioning, one to three fireplaces and a 2-car to a 3.5-car garage. The comparables have improvement assessments ranging from \$112,230 to \$124,178 or from \$21.72 to \$23.39 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 due to its older age and larger dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables as they are most similar to the subject property in location, design, age, dwelling size, and most features, except each comparable has a basement which the subject lacks requiring downward adjustments for basements. These comparables have improvement assessments ranging from \$93,524 to \$124,178 or from \$18.66 to \$23.39 per square foot of living area. The subject's improvement assessment of \$111,564 or \$21.66 per square foot of living area falls within the range established by the best comparables in this record. However, the improvement assessment is not supported as each comparable is superior to the subject with their basements I contrast to the subject's inferior concrete slab foundation. After considering adjustments to the comparables for differences to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
