

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Deborah Graham
DOCKET NO.: 17-23171.001-R-1
PARCEL NO.: 05-34-107-033-0000

The parties of record before the Property Tax Appeal Board are Deborah Graham, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,785
IMPR.: \$40,047
TOTAL: \$43,832

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of frame and masonry exterior construction with 1,650 square feet of living area. The townhome is approximately 55 years old. Features of the home include a crawl space foundation and central air conditioning. The property has a 3,120 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located in the same neighborhood code as the subject. The comparables are improved with class 2-95 townhomes of masonry or frame and masonry exterior construction containing either 1,440 or 2,826 square feet of living area. The dwellings are either 16 or 58 years old. Each

comparable has a full unfinished basement and central air conditioning. Two comparables each have one fireplace and a two-car garage. The comparables have improvement assessments ranging from \$27,403 to \$57,423 or from \$19.03 to \$20.32 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$34,338 or \$19.89 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,832. The subject property has an improvement assessment of \$38,528 or \$23.35 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with two-story townhomes of frame and masonry construction each containing 1,650 square feet of living area. The comparables are each 55 years old. Three comparables have crawl space foundations and one comparable has a partial unfinished basement. Each comparable has central air conditioning. One comparable has two fireplaces. The comparables have improvement assessments ranging from \$44,000 to \$44,957 or from \$26.67 to \$27.25 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review's comparable #4 due to their larger dwelling sizes, newer ages and/or basements when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1, #2 and #3 as they are identical or nearly identical to the to the subject in location, design, exterior construction, age, dwelling size, foundation and features. These comparables have improvement assessments ranging from \$44,865 to \$44,957 or from \$27.19 to \$27.25 per square foot of living area. The subject's improvement assessment of \$38,528 or \$23.35 per square foot of living area falls below the range established by the best comparables in this record and is well supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
