

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Glenn Lefkovitz
DOCKET NO.: 17-23214.001-R-1
PARCEL NO.: 05-27-408-017-0000

The parties of record before the Property Tax Appeal Board are Glenn Lefkovitz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$30,000
IMPR.: \$55,008
TOTAL: \$85,008

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 2,419 square feet of living area. The dwelling is approximately 61 years old. Features of the home include a full basement with finished area, central air conditioning, one fireplace and a two-car garage. The property has a 15,000 square foot site located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-04 dwellings of masonry exterior construction ranging in size from 3,219 to 4,022 square feet of living area. The dwellings are either 58 or 95 years old.

The comparables have partial or full basements, two of which have finished area. Each comparable has central air conditioning, one fireplace and a two-car garage. The comparables have improvement assessments ranging from \$63,100 to \$100,779 or from \$18.76 to \$25.06 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$55,008 or \$22.74 per square foot of living area.

The appellant's submission included a copy of the "Cook County Board of Review" final decision dated December 2, 2017 disclosing the subject has a total assessment of \$93,910. The submission by the appellant also revealed that the subject has an improvement assessment of \$63,910 or \$26.42 per square foot of living area.

The board of review did not submit any evidence in support of its assessment of the subject property or to refute the appellant's argument.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the only evidence of assessment equity was submitted by the appellant. The Board finds none of the comparables are truly similar to the subject in age and/or dwelling size. These comparables are similar in location, design, exterior construction, and many features. The Board finds each of these comparables is larger than the subject dwelling suggesting that upward adjustments would be appropriate to them due to economies of scale. The comparables have improvement assessments ranging from \$18.76 to \$25.06 per square foot of living area. The subject's improvement assessment of \$26.42 falls above the range established by the best comparables in this record and is excessive based on the subject's smaller dwelling size. After analysis of the appellant's data and considering the differences in size and features, the Board finds the appellant has met this burden and a reduction in the assessment commensurate with the appellant's request is warranted.

The Board finds the board of review did not submit any evidence in support of its assessment of the subject property or to refute the appellant's argument as required by section 1910.40(a) of the rules of the Property Tax Appeal Board and is found to be in default pursuant to section 1910.69(a) of the rules of the Property Tax Appeal Board. After analysis of the appellant's data, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement assessment was inequitably assessed and a reduction commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
