Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels. Parcel #1, identified by parcel index number (PIN) #14-17-210-004-0000, is improved with a two-story dwelling of masonry exterior construction with 2,376 square feet of living area. The dwelling is approximately 112 years old. Features of the home include a full unfinished basement. Parcel #2, identified by PIN #14-17-210-005-0000, has a land assessment with no improvement assessment to the property. The subject's two parcels are located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant submitted a copy of the final decision of the Cook County Board of Review dated December 2, 2017 for the 2017 assessment year concerning the two parcels which depicts assessments of \$38,285 for Parcel #1 and \$9,676 for Parcel #2. The subject's two parcels have a

combined total assessment of \$47,961. The attorney for the appellant submitted its “Residential Appeal” with a “Comparable Sales/Assessment Grid Analysis”, “Addendum to Petition” showing a separate listing of each individual parcel’s land and improvement assessments, and a supplemental “Brief” from the appellant’s attorney.

The appellant contends improvement assessment inequity as the basis of the appeal for Parcel #1 and did not contest the land assessments for either of the subject’s two parcels. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with similar class code 2-11 dwellings of masonry exterior construction ranging in size from 4,251 to 7,557 square feet of living area. The comparables are each 112 years old and have full unfinished basements. One comparable has a two-car garage. The comparables have improvement assessments ranging from \$32,860 to \$65,133 or from \$7.73 to \$8.62 per square foot of living area. Based on this evidence, the appellant requested that the subject’s improvement assessment for Parcel #1 be reduced to \$19,602 or \$8.25 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for Parcel #1 of \$38,285. The subject property has an improvement assessment of \$28,037 or \$11.80 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-11 dwellings of masonry exterior construction ranging in size from 2,008 to 2,340 square feet of living area. The dwellings are each 117 years old. Each comparable has a partial or a full unfinished basement and a one-car or a two-car garage. The comparables have improvement assessments ranging from \$26,887 to \$31,332 or \$13.39 per square foot of living area. Based on this evidence, the board of review requested the subject’s assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board’s consideration. The Board gave less weight to the appellant’s comparables due to their larger dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review’s comparables as they are similar to the subject in location, design, exterior construction, age, dwelling size and most features; except these comparables have garages which the subject lacks requiring downward adjustments to make them more equivalent to the subject. These comparables have

improvement assessments ranging from \$26,887 to \$31,332 or \$13.39 per square foot of living area. The subject's improvement assessment of \$28,037 or \$11.80 per square foot of living area falls within the range established by the best comparables in this record on an overall improvement assessment basis but below the range on a per-square-foot basis. After considering adjustments to the comparables for differences to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
