

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mary Vogt  
DOCKET NO.: 17-23253.001-R-1  
PARCEL NO.: 14-08-118-006-0000

The parties of record before the Property Tax Appeal Board are Mary Vogt, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$16,456  
**IMPR.:** \$52,634  
**TOTAL:** \$69,090

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story multi-family dwelling of masonry exterior construction with 5,988 square feet of living area. The dwelling is approximately 97 years old. Features of the home include a full basement with an apartment and a 3-car garage. The property has a 4,114 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar class 2-11 multi-family dwellings of masonry exterior construction ranging in size from 5,367 to 6,978 square feet of living area. The dwellings range

in age from 102 to 119 years old. The comparables have full basements, two of which have an apartment. Each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$34,300 to \$44,589 or either \$6.27 or \$6.39 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$38,024 or \$6.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$69,090. The subject property has an improvement assessment of \$52,634 or \$8.79 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with three-story class 2-06 multi-family buildings of masonry exterior construction ranging in size from 5,115 to 5,700 square feet of living area. The dwellings range in age from 102 to 109 years old. The comparables have full basements, one of which has an apartment. Two comparables each have central air conditioning. Two comparables each have a 2-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$46,802 to \$59,907 or from \$8.91 to \$10.51 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 and the board of review's comparables #1, #3 and #4 due to their unfinished basements and/or dissimilar dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3 and the board of review's comparable #2 as they are most similar to the subject in location, design and/or class, exterior construction, age, dwelling size, foundation type, and many features. These comparables have improvement assessments ranging from \$6.27 to \$9.43 per square foot of living area. The subject property's improvement assessment of \$8.79 per square foot of living area falls within the range established by the best comparables in this record on a per square foot basis. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
