

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT:	Fairmont Property Management, Inc.
DOCKET NO.:	17-23668.001-R-1
PARCEL NO.:	14-29-425-020-0000

The parties of record before the Property Tax Appeal Board are Fairmont Property Management, Inc., the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds <u>No Change</u> in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$15,360
IMPR.:	\$52,463
TOTAL:	\$67,823

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, multi-family building of masonry exterior construction with 3,420 square feet of building area. The building is approximately 137 years old. Features include a full basement with an apartment and a 2-car garage. The property has a 2,400 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar class 2-11 buildings of frame or frame and masonry exterior construction ranging in size from 2,929 to 3,874 square feet of building area. The

buildings range in age from 122 to 132 years old. Two comparables each have a crawl space foundation, and two comparables each have a full basement with a finished area or an apartment. One comparable has central air conditioning. Three comparables have either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$30,292 to \$50,160 or from \$9.85 to \$13.02 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$39,775 or \$11.63 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,823. The subject property has an improvement assessment of \$52,463 or \$15.34 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. Two comparables are also located within the same block as the subject. The comparables are improved with similar class 2-11, three-story buildings of masonry exterior construction ranging in size from 2,592 to 3,843 square feet of building area. The buildings range in age from 100 to 137 years old. The comparables have full basements with two having an apartment. One comparable has one fireplace. Three comparables each have either a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$47,771 to \$96,571 or from \$16.24 to \$30.06 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 through #3 as well as the board of review comparable #2 due to their dissimilar building sizes, lack of a basement, and/or lack of a garage when compared to the subject. The Board also gives less weight to the board of review comparable #4 which appears to be an outlier with its significantly higher improvement assessments in relation to the other comparables in this record.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 as well as the board of review comparables #1 and #3 as they are most similar in overall property characteristics to the subject. In addition, the board of review comparable #1 is the best comparable in this record as it is practically identical to the subject property in most property characteristics except for its smaller building size and has an improvement assessment of \$55,571 or \$18.31 per square foot of building area. The three best comparables have improvement assessments ranging from \$39,251 to \$62,410 or from \$13.02 to \$18.31 per square

foot of building area. The subject's improvement assessment of \$52,463 or \$15.34 per square foot of building area falls within the range of the three best comparables in this record and below the one best comparable in this record. After considering adjustments to the comparables for differences to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
