

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Freeman
DOCKET NO.: 17-23780.001-R-1
PARCEL NO.: 05-07-211-032-0000

The parties of record before the Property Tax Appeal Board are James Freeman, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,412
IMPR.: \$52,007
TOTAL: \$67,419

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,648 square feet of living area. The dwelling is approximately 98 years old. Features of the home include a partial basement with finished area, central air conditioning, a fireplace, and a two-car garage. The property has a 10,275 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-06 dwellings of frame exterior construction that range in size from 2,538 to 3,745 square feet of living area and range in age from 106 to 122 years old. The comparables

each have a partial or a full basement with one having finished area, a fireplace and a two-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$31,137 to \$61,643 or from \$12.27 to \$16.88 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$40,250 or \$15.20 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,419. The subject has an improvement assessment of \$52,007 or \$19.64 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same assessment neighborhood code as the subject. The comparables are improved with two-story, class 2-06 dwellings of frame or masonry exterior construction that range in size from 2,272 to 2,967 square feet of living area and range in age from 85 to 98 years old. The comparables each have a full unfinished basement, one comparable has central air conditioning, three comparables each have one or two fireplaces and three comparables each have a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$54,301 to \$78,570 or from \$20.29 to \$27.22 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables along with board of review comparable #4 due to their differences in age and/or dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #3 which overall are most similar to the subject in location, age, dwelling size, and features. These comparables have improvement assessments ranging from \$54,117 to \$78,570 or from \$20.29 to \$27.22 per square foot of living area. The subject has an improvement assessment of \$52,007 or \$19.64 per square foot of living area, which is below the range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
