

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Gold  
DOCKET NO.: 17-23789.001-R-1  
PARCEL NO.: 05-06-201-110-0000

The parties of record before the Property Tax Appeal Board are Steve Gold, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$71,456  
**IMPR.:** \$214,330  
**TOTAL:** \$285,786

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 6,256 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a partial basement with finished area, central air conditioning, three fireplaces, and a three-car garage. The property has a 32,480 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-09 dwellings of frame and masonry or masonry exterior construction that range in size from 5,459 to 7,294 square feet of living area and range in age from 1 to 56 years

old. The comparables have other features with varying degrees of similarity to the subject. The comparables have improvement assessments ranging from \$145,433 to \$195,610 or from \$26.64 to \$29.60 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$172,103 or \$27.51 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$285,786. The subject has an improvement assessment of \$214,330 or \$34.26 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same assessment neighborhood code as the subject. The comparables are improved with two-story, class 2-09 dwellings of masonry, frame and masonry or frame exterior construction that range in size from 5,751 to 6,617 square feet of living area and range in age from 7 to 13 years old. The comparables have other features with varying degrees of similarity to the subject. The comparables have improvement assessments ranging from \$210,832 to \$249,205 or from \$35.80 to \$38.33 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their differences in age when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which are relatively similar to the subject in location, age, style, dwelling size and features. These comparables have improvement assessments ranging from \$35.80 to \$38.33 per square foot of living area. The subject has an improvement assessment of \$34.26 per square foot of living area, which is below the range established by the best comparables in this record. Based on this evidence, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
