

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Fairmont Property Management, Inc.
DOCKET NO.: 17-23802.001-R-1
PARCEL NO.: 14-20-313-018-0000

The parties of record before the Property Tax Appeal Board are Fairmont Property Management, Inc., the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,000
IMPR.: \$63,125
TOTAL: \$84,125

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, multi-family dwelling of masonry exterior construction with 5,871 square feet of living area. The dwelling is approximately 107 years old. Features of the home include a full unfinished basement and a one-car garage. The property has a 3,750 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables that have the same neighborhood code as the subject. The comparables are described as class 2-11, multi-family dwellings of masonry exterior construction that range in size from 5,943 to 6,045 square feet of living area. The dwellings are 112 or 117 years old. Two comparables have

full unfinished basements, one comparable has a concrete slab foundation and two comparables each have a one-car or a two-car garage. The comparables have improvement assessments ranging from \$61,671 to \$63,174 or from \$10.20 to \$10.63 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$61,235 or \$10.43 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment of \$91,745. The subject has an improvement assessment of \$70,745 or \$12.05 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same neighborhood code as the subject. The comparables are described as class 2-11, three-story multi-family dwellings of masonry exterior construction that range in size from 4,464 to 5,184 square feet of living area. The dwellings are 97 or 107 years old. The comparables have full basements with one having an apartment. One comparable has central air conditioning and three fireplaces. Each comparable has a two-car garage. The comparables have improvement assessments ranging from \$56,916 to \$71,378 or from \$12.75 to \$13.77 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains seven equity comparables for the Board's consideration similar to the subject in location, design, class and age. The Board gave less weight to the board of review comparables due to their smaller dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are most similar to the subject in dwelling size and have varying degrees of similarity in features. These three comparables have improvement assessments ranging from \$61,671 to \$63,174 or from \$10.20 to \$10.63 per square foot of living area. The subject has an improvement assessment of \$70,745 or \$12.05 per square foot of living area, which falls above the range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant's improvement was inequitably assessed and a reduction in the subject's improvement assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
