

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Garcia
DOCKET NO.: 17-23863.001-R-1
PARCEL NO.: 28-22-420-003-0000

The parties of record before the Property Tax Appeal Board are Chris Garcia, the appellant, by attorney Michael R. Davies of Ryan Law LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,908
IMPR.: \$12,641
TOTAL: \$15,549

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level frame and masonry dwelling with 1,374 square feet of living area. The dwelling is approximately 47 years old. Features of the home include an unfinished partial basement and a two-car garage. The property has a 7,757 square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five comparable properties located within the same neighborhood code as the subject property. The comparables consist of multi-level dwellings of frame, masonry or frame and masonry exterior construction.¹ The dwellings are

either 43 or 49 years old and range in size from 1,102 to 1,346 square feet of living area. The comparables each have a partial basement with finished area and either a 1-car or a 2-car garage. One comparable has central air-conditioning. The comparables have improvement assessments that range from \$9,592 to \$11,770 or from \$7.81 to \$8.74 per square foot of living area.

Based on this evidence, the appellant requested that the subject's total assessment be reduced to \$14,312. The request would lower the subject's improvement assessment to \$11,404 or \$8.30 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,549. The subject has an improvement assessment of \$12,641 or \$9.20 per square foot of living area.

In support of its argument the board of review submitted information on four comparable properties located within the same neighborhood code as the subject. The comparables consist of similar class 2-34 multi-level dwellings of frame and masonry exterior construction. The dwellings range in age from 46 to 50 years old and range in size from 1,216 to 1,374 square feet of living area. The comparables each have a partial basement with finished area and either a 1-car or a 2-car garage. Two comparables have central air-conditioning. The comparables have improvement assessments that range from \$12,022 to \$13,794 or from \$9.89 to \$11.06 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity with respect to the improvement as a basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to appellant's comparables #3 and #4 and board of review comparables #2, #3 and #4 which differ from the subject in dwelling size and/or garage size and/or have central air-conditioning which the subject property lacks.

The Board finds the best evidence of value to be the appellant's comparables #1, #2 and #5 and board of review comparable #1 which are similar to the subject property in location, age, design, and most features, although each comparable features finished basement area, suggesting downward adjustments are necessary to make them more similar to the subject. These comparables had improvement assessments ranging from \$9,797 to \$13,794 or from \$7.81 to \$10.04 per square foot of living area. The subject's improvement assessment of \$12,641 or \$9.20 per square foot of living area falls within the range established by the best comparables in this

record. After considering adjustments to the comparables for differences from the subject, the Board finds that the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
