Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,950 square feet of living area. The dwelling is approximately 63 years old. Features of the home include a partial basement with finished area, central air conditioning, two fireplaces, and a two-car garage. The property consists of two parcels containing a total of 16,276 square feet of land area and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-04 dwellings of frame or masonry exterior construction that range in size

from 3,459 to 4,229 square feet of living area and range in age from 59 to 95 years old. Each comparable has a partial unfinished basement, one to three fireplaces and two-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$54,493 to \$67,925 or for \$15.73 and \$16.06 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$63,003 or \$15.95 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject on only one parcel that has the improvement. The subject has an improvement assessment of \$68,704 or \$17.39 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same assessment neighborhood code as the subject. The comparables are improved with 1-story and 1.5-story, class 2-04 dwellings of masonry, frame, or frame and masonry exterior construction that range in size from 3,169 to 4,102 square feet of living area and range in age from 55 to 89 years old. Features of each comparable include a partial or a full basement with finished area, central air conditioning and two fireplaces. Three comparables each have a two-car garage. The comparables have improvement assessments ranging from \$64,087 to \$107,401 or from \$18.51 to \$26.18 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven equity comparables for the Board's consideration. The Board gave less weight to appellant's comparables #1 and #3 along with board of review comparables #1, #3, and #4 due to differences in dwelling or design/number of stories.

The Board finds the best evidence of assessment equity to be appellant's comparable #2 and board of review comparable #2. Both comparables require upward adjustments for lack of basement finished area, one less fireplace, older age and/or lack of garage when compared to the subject. The comparables have improvement assessments of \$67,925 and \$70,690 or for \$16.06 and \$18.51 per square foot of living area. The subject has an improvement assessment of \$68,704 or \$17.39 per square foot of living area, which is between the two best comparables in this record. After considering adjustments to the comparables for differences in age and features when compared to the subject, the Board finds the subject's improvement assessment is equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
