

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ken Jungwirth  
DOCKET NO.: 17-27353.001-R-1  
PARCEL NO.: 14-30-207-015-0000

The parties of record before the Property Tax Appeal Board are Ken Jungwirth, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$15,000  
**IMPR.:** \$78,829  
**TOTAL:** \$93,829

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame construction with 2,464 square feet of living area. The dwelling is 125 years old. Features of the home include a full finished basement, central air conditioning, a fireplace and a 2-car garage. The property has a 3,000 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that were located within the same neighborhood code as the subject. The comparables were class 2-06 dwellings of frame construction that ranged in size from 2,240 to 2,878 square feet of living area. The homes ranged in age from 120 to 127 years old. The

appellant submitted no information as to the other features of the comparables. The comparables had improvement assessments ranging from \$36,603 to \$48,725 or from \$16.19 to \$17.42 per square foot of living area.

Based on this evidence the appellant requested that the subject's assessment be reduced to \$56,198.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$93,829. The subject property has an improvement assessment of \$78,829 or \$31.99 per square foot of living area. In support of its contention of the correct assessment the board of review submitted a grid analysis containing two equity comparables that were located within the same neighborhood code as the subject. The comparables were two-story class 2-06 dwellings of frame construction that contained either 1,876 or 1,960 square feet of living area. The homes were either 115 or 132 years old and had full finished basements. Other features of the comparables included central air conditioning and a 2-car garage. The comparables had improvement assessments of \$64,196 and \$64,802 or \$32.75 and \$34.54 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of six comparable properties for the Board's consideration. The Board gave less weight to the appellant's comparables due to the lack of information regarding the features of the comparables, which is necessary to compare the properties to the subject. The Board finds the board of review's comparables were similar to the subject in location, style, age and most features. However, these comparables differed considerably in size when compared to the subject. Nevertheless, the best comparables had improvement assessments of \$64,196 and \$64,802 or \$32.75 and \$34.54 per square foot of living area. The subject's improvement assessment of \$78,829 or \$31.99 per square foot of living area falls above the improvement assessments of the best comparables in the record on a total improvement assessment basis but below on a per square foot basis. However, after considering adjustments to the best comparables for differences when compared to the subject, such as their smaller sizes, the Board finds the subject's higher total improvement assessment is justified. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
