

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Aric Eikum
DOCKET NO.: 17-28627.001-R-1
PARCEL NO.: 18-07-211-018-0000

The parties of record before the Property Tax Appeal Board are Aric Eikum, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,854
IMPR.: \$105,735
TOTAL: \$113,589

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 3,919 square feet of living area. The dwelling is approximately 4 years old. Features of the home include an unfinished basement, central air conditioning, two fireplaces and a three-car garage. The property has a 11,220 square foot site and is located in Western Springs, Lyons Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-08 dwellings of frame or masonry exterior construction that range in size from 3,874 to 4,094 square feet of living area and are 1 year old. The comparables each have a

basement with finished area, central air conditioning, one or two fireplaces, and a two-car or a three-car garage. The comparables have improvement assessments ranging from \$61,643 to \$94,931 or for \$15.91 and \$23.19 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$81,358 or \$20.76 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$113,589. The subject has an improvement assessment of \$105,735 or \$26.98 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables that are located within the same assessment neighborhood code as the subject. The comparables are improved with two-story, class 2-08 dwellings of frame, masonry, or frame and masonry exterior construction that range in size from 4,051 to 4,201 square feet of living area and range in age from 4 to 12 years old. Each comparable features a basement with finished area, central air conditioning, and a two-car or a three-car garage. Two comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$126,627 to \$133,684 or from \$30.14 to \$32.75 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains six equity comparables for the Board's consideration that have varying degrees of similarity to the subject in location, age, dwelling sizes, and features. However, each comparable has finished basement area in contrast to the subject's unfinished basement. These comparables have improvement assessments ranging from \$61,643 to \$133,684 or from \$15.91 to \$32.75 per square foot of living area. Excluding appellant's comparable #1 which appears to be an outlier, yields a tighter range from \$94,004 to \$133,684 or from \$23.19 to \$32.75 per square foot of living area. The subject has an improvement assessment of \$105,735 or \$26.98 per square foot of living area, which is within the range established by the comparables in this record. Based on the evidence and after considering adjustments to the comparables for differences including basement finished area when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
