

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eddie Chan
DOCKET NO.: 17-28642.001-R-1
PARCEL NO.: 28-34-411-009-0000

The parties of record before the Property Tax Appeal Board are Eddie Chan, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,932
IMPR.: \$7,345
TOTAL: \$9,277

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry construction with 1,074 square feet of living area. The dwelling is 44 years old. Features of the home include a finished partial basement and central air conditioning. The property has a 5,520 square foot site and is located in Country Club Hills, Bremen Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that were located within the same neighborhood code as the subject. The comparables were class 2-34 dwellings of frame and masonry construction that ranged in size from 1,193 to 1,241 square feet of living area. Each home was 46 years old and had a finished

partial basement. One comparable had central air conditioning and a fireplace and each comparable had either a 1-car or a 2-car garage. The comparables had improvement assessments ranging from \$2,883 to \$6,987 or from \$2.33 to \$5.63 per square foot of living area.

Based on this evidence the appellant requested that the subject's assessment be reduced to \$6,797.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$9,277. The subject property has an improvement assessment of \$7,345 or \$6.84 per square foot of living area. In support of its contention of the correct assessment the board of review submitted a grid analysis containing four equity comparables that were located within the same neighborhood code and on the same block as the subject. The comparables were multi-level class 2-34 dwellings of frame and masonry construction that contained either 1,062 or 1,074 square feet of living area. The homes ranged in age from 40 to 44 years old and each had a finished partial basement. One comparable had central air conditioning and two comparables had either a 1.5-car or a 2-car garage. The comparables had improvement assessments ranging from \$7,694 to \$8,485 or from \$7.16 to \$7.90 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #3 and #4, due to their larger sizes when compared to the subject. The Board finds the parties' remaining comparables were most similar to the subject in location, style, age, size and most features. However, three of the parties' best comparables had a garage unlike the subject. Nevertheless, the best comparables had improvement assessments ranging from of \$5,437 to \$8,485 or from \$4.56 to \$7.90 per square foot of living area. The subject's improvement assessment of \$7,345 or \$6.84 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is justified. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
