

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Beata Kwak
DOCKET NO.: 17-29625.001-R-1
PARCEL NO.: 19-33-305-051-0000

The parties of record before the Property Tax Appeal Board are Beata Kwak, the appellant, by attorney Scott L. David, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,687
IMPR.: \$24,596
TOTAL: \$29,283

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry construction with 2,812 square feet of living area. The dwelling is 31 years old. Features of the home include a full unfinished basement and a 2-car garage. The property has a 6,250 square foot site and is located in Burbank, Stickney Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal.¹ In support of this argument the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are two-story, class 2-11, multi-family dwellings of masonry construction that range in size from 2,846 to 3,136 square feet of living area. The homes range in age from 22 to

39 years old and have full basements, three of which have finished area. Two comparables have central air conditioning and each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$22,494 to \$25,119 or from \$7.90 to \$8.22 per square foot of living area.

Based on this evidence the appellant requested that the subject's total assessment be reduced to \$27,287.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$29,283. The subject property has an improvement assessment of \$24,596 or \$8.75 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are 2-story, class 2-11, multi-family dwellings of masonry construction that range in size from 2,585 to 2,704 square feet of living area. The homes range in age from 39 to 48 years old. The comparables have full or partial basements, one of which has finished area, and a 2-car garage. The comparables have improvement assessments ranging from \$25,000 to \$26,577 or from \$9.44 to \$10.20 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board finds all of the comparables are similar to the subject in location, building classification, size, age and most features. The comparables have improvement assessments ranging from \$22,494 to \$26,577 or from \$7.90 to \$10.20 per square foot of living area. The subject's improvement assessment of \$24,596 or \$8.75 per square foot of living area falls within the range established by the parties' comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
