Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry construction with 1,104 square feet of living area. The dwelling is 61 years old. Features of the home include a full unfinished basement, central air conditioning and a 2-car garage. The property has a 3,125 square foot site and is located in Summit, Lyons Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal.¹ In support of this argument the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are 1-story or 1.5-story, class 2-03, dwellings of frame, masonry or frame and masonry construction that range in size from 1,067 to 1,292 square feet of living area. The

¹ The appellant's appeal was marked as if overvaluation based on a recent appraisal was being challenged, however, the appellant submitted evidence of improvement assessment inequity based on comparable assessment data.

homes range in age from 64 to 68 years old. Three comparables have full or partial basements, one of which has finished area, and one comparable has a slab foundation. Two comparables have central air conditioning, and two comparables have a 2-car garage. The comparables have improvement assessments ranging from \$9,891 to \$11,279 or from \$8.29 to \$9.27 per square foot of living area.

Based on this evidence the appellant requested that the subject's total assessment be reduced to \$13,216.

The board of review submitted its "Board of Review Notes on Appeal." The subject has a total assessment of \$15,574. The subject property has a total improvement assessment of \$11,982 or \$10.85 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are 1-story, class 2-03, dwellings of masonry construction that range in size from 1,082 to 1,224 square feet of living area. The homes range in age from 59 to 62 years old and have full unfinished basements. The comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$12,526 to \$14,437 or from \$11.58 to \$12.46 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparable #1 and #2 due to their dissimilar slab foundation and/or their lack of a garage, when compared to the subject. The Board finds the parties' remaining comparables were more similar to the subject in location, building classification, age, size and most features. These comparables have improvement assessments ranging from \$9,891 to \$14,437 or from \$8.73 to \$12.46 per square foot of living area. The subject's improvement assessment of \$11,982 or \$10.85 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
