

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christine Koziel
DOCKET NO.: 17-30351.001-R-1
PARCEL NO.: 16-23-113-003-0000

The parties of record before the Property Tax Appeal Board are Christine Koziel, the appellant, by attorney Michael R. Davies, of Ryan Law LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,281
IMPR.: \$15,111
TOTAL: \$18,392

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story mixed-use building of masonry construction with 3,319 square feet of building area. The building is 102 years old. The building has an unfinished partial basement and a 2.5-car garage. The property has a 3,125 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 mixed-use property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject. The comparables are two-story, class 2-11, multi-family dwellings of masonry construction that range in size from 3,226 to 3,418 square feet of living area. The homes range in age from 107 to

115 years old and have full basements, four of which are finished, three as apartments. Two comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$6,739 to \$11,587 or from \$2.09 to \$3.49 per square foot of living area.

Based on this evidence the appellant requested that the subject's assessment be reduced to \$10,218.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,392. The subject property has an improvement assessment of \$15,111 or \$4.55 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are two-story, class 2-12 or class 2-11 buildings of masonry construction that range in size from 2,956 to 3,573 square feet of building area. The buildings range in age from 96 to 107 years old and have unfinished full or partial basements. One comparable has central air conditioning and two comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$15,901 to \$18,955 or from \$4.69 to \$6.41 per square foot of building area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables, as well as the board of review's comparable #4, due to their dissimilar building classifications when compared to the subject. The Board finds the board of review's remaining comparables are most similar to the subject in location, building classification, style, age, size and most features. These comparables have improvement assessments ranging from \$15,901 to \$17,248 or from \$4.69 to \$5.21 per square foot of building area. The subject's improvement assessment of \$15,111 or \$4.55 per square foot of building area falls below the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is well supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
