

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Melissa Martier
DOCKET NO.: 17-30355.001-R-1
PARCEL NO.: 03-25-119-038-0000

The parties of record before the Property Tax Appeal Board are Melissa Martier, the appellant, by attorney Michael R. Davies, of Ryan Law LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,550
IMPR.: \$30,950
TOTAL: \$35,500

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry construction with 2,069 square feet of living area. The dwelling is 50 years old. Features of the home include a finished partial basement, central air conditioning, a fireplace and a 2-car garage. The property has a 9,100 square foot site and is located in Mount Prospect, Wheeling Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject. The comparables are 1-story or 2-story, class 2-04, 2-07 or 2-78, dwellings of frame and masonry construction that range in size from 1,977 to 2,118 square feet of living area. The homes range

in age from 47 to 60 years old and have other features with varying degrees of similarity to the subject. The comparables have improvement assessments ranging from \$21,921 to \$27,344 or from \$10.35 to \$13.17 per square foot of living area.

Based on this evidence the appellant requested that the subject's total assessment be reduced to \$25,964.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$35,500. The subject property has an improvement assessment of \$30,950 or \$14.96 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are multi-level, class 2-34, dwellings of frame and masonry construction that range in size from 1,591 to 1,845 square feet of living area. The homes are either 50 or 51 years old and have other features with varying degrees of similarity to the subject. The comparables have improvement assessments ranging from \$25,196 to \$28,819 or from \$15.62 to \$16.75 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables due to their dissimilar classification codes when compared to the subject. In addition, the appellant's comparables #4 and #5 lack a basement foundation, unlike the subject's finished partial basement. The Board finds the board of review's comparables are most similar to the subject in location, classification code, age and most features. However, they are all smaller than the subject. These comparables have improvement assessments ranging from \$25,196 to \$28,819 or from \$15.62 to \$16.75 per square foot of living area. The subject's improvement assessment of \$30,950 or \$14.96 per square foot of living area falls slightly above the range established by the best comparables in the record on a total improvement assessment basis but below the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, such as their smaller sizes, the Board finds the subject's slightly higher total improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
