

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Wafa Shalabi
DOCKET NO.: 17-31066.001-R-1
PARCEL NO.: 19-31-101-045-0000

The parties of record before the Property Tax Appeal Board are Wafa Shalabi, the appellant, by attorney Scott L. David, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,325
IMPR.: \$24,907
TOTAL: \$28,232

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry construction with 2,808 square feet of living area. The dwelling is 40 years old. Features of the home include a finished partial basement, central air conditioning and a 2-car garage. The property has a 6,650 square foot site and is located in Burbank, Stickney Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal.¹ In support of this argument the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are two-story, class 2-11, multi-family dwellings of masonry construction that

range in size from 2,862 to 3,300 square feet of living area. The homes range in age from 36 to 59 years old. Two comparables have full unfinished basements and two comparables have crawl-space foundations. Three comparables have a 2-car garage. The comparables have improvement assessments ranging from \$23,634 to \$28,413 or from \$7.95 to \$8.61 per square foot of living area. Based on this evidence the appellant requested that the subject's total assessment be reduced to \$26,712.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,232. The subject property has an improvement assessment of \$24,907 or \$8.87 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code and on the same block as the subject. The comparables are 2-story, class 2-11, multi-family dwellings of masonry construction that range in size from 2,483 to 2,830 square feet of living area. The homes are either 31 or 40 years old and have full unfinished basements. One comparable has central air conditioning and each comparable has either a 2-car or 2.5-car garage. The comparables have improvement assessments ranging from \$24,980 to \$28,141 or from \$9.56 to \$10.96 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2 and #4, due to either their dissimilar crawl-space foundation or their significantly larger size when compared to the subject. The Board finds the parties' remaining comparables were more similar to the subject in location, style, age, size and features. These comparables have improvement assessments ranging from \$24,980 to \$28,141 or from \$8.50 to \$10.96 per square foot of living area. The subject's improvement assessment of \$24,907 or \$8.87 per square foot of living area falls below the range established by the best comparables in the record on a total improvement assessment basis and within the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
