

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Louis Eisenstein
DOCKET NO.: 17-31844.001-R-1
PARCEL NO.: 14-31-124-005-0000

The parties of record before the Property Tax Appeal Board are Louis Eisenstein, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,828
IMPR.: \$60,799
TOTAL: \$71,627

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, mixed-use building of masonry exterior construction with 5,370 square feet of building area. The building is approximately 122 years old. Features of the building include a concrete slab foundation. The property has a 2,707 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located in the subject's neighborhood code. The comparables are described as class 2-12, mixed-use buildings of masonry exterior construction that range in size from 4,944 to 5,760 square feet of building area. The buildings range in age from 102 to 131 years old. Three comparables have

partial or full unfinished basements, one comparable has a concrete slab foundation and a 1.5-car detached garage, and two comparables have central air conditioning. The comparables have improvement assessments ranging from \$12,964 to \$61,469 or from \$2.59 to \$10.67 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$43,497 or \$8.10 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment of \$71,627. The subject has an improvement assessment of \$60,799 or \$11.32 per square foot of building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same neighborhood code as the subject. The comparables are described as class 2-12, three-story mixed-use buildings of masonry exterior construction that range in size from 5,103 to 5,355 square feet of building area. The buildings range in age from 102 to 122 years old. Each comparable has a partial unfinished basement and two comparables have central air conditioning. The comparables have improvement assessments ranging from \$65,497 to \$68,452 or from \$12.20 to \$13.11 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration that have varying degrees of similarity to the subject in age, building size and/or features. The Board finds appellant's comparable #1 appears to be an outlier as it has a considerably lower improvement assessment than the other comparables in the record. The remaining comparables have improvement assessments ranging from \$47,691 to \$68,452 or from \$9.51 to \$13.11 per square foot of building area. The subject has an improvement assessment of \$60,799 or \$11.32 per square foot of building area, which falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement appears to be equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
