

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Suketu Desai
DOCKET NO.: 17-32072.001-R-1
PARCEL NO.: 03-09-117-026-0000

The parties of record before the Property Tax Appeal Board are Suketu Desai, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,396
IMPR.: \$36,927
TOTAL: \$41,323

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,834 square feet of living area. The dwelling is approximately 25 years old. Features of the home include a partial unfinished basement, central air conditioning, one fireplace and a three-car garage. The property has an 8,793 square foot site and is located in Wheeling, Wheeling Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-78 dwellings of masonry exterior construction ranging in size from 2,799 to 3,556 square feet of living area and range in age from 22 to 58 years old. The

comparables have partial or full basements with one having a formal recreation room. Each comparable has central air conditioning, one fireplace and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$25,288 to \$35,733 or from \$9.03 to \$10.75 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$28,170 or \$9.94 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$41,323. The subject property has an improvement assessment of \$36,927 or \$13.03 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood code. Comparables #3 and #4 are located on the same block. The comparables are improved with a class 2-78, two-story dwellings of frame or frame and masonry exterior construction that range in size from 2,171 to 2,659 square feet of living area and range in age from 12 to 38 years old. Each comparable has a partial or a full unfinished basement, central air conditioning, one fireplace and a two-car to a three-car garage. The comparables have improvement assessments ranging from \$28,457 to \$36,889 or from \$13.11 to \$13.98 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables along with board of review comparables #1 and #2 due to differences in age and/or dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables #3 and #4 which overall are most similar to the subject in location, age, dwelling size and features. These comparables have improvement assessments of \$36,899 and \$33,496 or \$13.87 and \$13.98 per square foot of living area, respectively. The subject's improvement assessment of \$36,927 or \$13.03 per square foot of living area, is supported on a per square foot basis by the two best comparables in this record but falls slightly above in terms of overall improvement assessment. The higher overall improvement assessment appears to be justified when considering the subject's larger dwelling size. Based on this evidence, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
