

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Dimiropoulos
DOCKET NO.: 17-32073.001-R-1
PARCEL NO.: 03-25-209-019-0000

The parties of record before the Property Tax Appeal Board are Steve Dimiropoulos, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,200
IMPR.: \$27,225
TOTAL: \$32,425

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry exterior construction with 1,478 square feet of living area. The dwelling is approximately 33 years old. Features of the home include a partial basement with a formal recreation room, central air conditioning, a fireplace and a two-car garage. The property has a 9,455 square foot site and is located in Mount Prospect, Wheeling Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-34 dwellings of masonry or frame and masonry exterior construction that range in size from 1,708 to 2,078 square feet of living area and range in age from 55 to 59 years

old. The comparables have partial basements with a formal recreation room. Two comparables have central air conditioning. One comparable has a fireplace and each comparable has a two-car garage. The comparables have improvement assessments ranging from \$22,204 to \$26,608 or from \$12.80 to \$13.58 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$19,539 or \$13.22 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,425. The subject has an improvement assessment of \$27,225 or \$18.42 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within the same assessment neighborhood code as the subject. Each comparable is improved with a multi-level, class 2-34 dwelling of frame and masonry exterior construction that contains 1,170 square feet of living area and is 55 years old. The comparables each have a partial basement with a formal recreation room, two comparables have central air conditioning and each comparable has a one-car or a two-car garage. The comparables have improvement assessments ranging from \$21,739 to \$22,478 or from \$18.58 to \$19.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven equity comparables for the Board's consideration none of which are truly similar to the subject as all are considerably older dwellings when compared to the subject. Nevertheless, the Board gave less weight to the appellant's comparable #1 due to its significantly larger dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are more similar to the subject in dwelling size. These comparables have improvement assessments ranging from \$13.00 to \$19.21 per square foot of living area. The subject has an improvement assessment of \$18.42 per square foot of living area, which is within the per square foot range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement assessment was inequitably assessed and a reduction in the subject's assessment was not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
