

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eric Wood
DOCKET NO.: 17-32086.001-R-1
PARCEL NO.: 13-36-224-039-0000

The parties of record before the Property Tax Appeal Board are Eric Wood, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,391
IMPR.: \$64,959
TOTAL: \$72,350

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,510 square feet of living area. The dwelling is approximately 1 year old. Features of the home include a full basement with a formal recreation room, central air conditioning, one fireplace and a two-car garage. The property has a 3,285 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-78 dwellings of frame exterior construction that range in size from 2,458 to 2,973 square feet of living area and range in age from 4 to 13 years old. The comparables

each have a full basement with a formal recreation room, central air conditioning, and a two-car garage. Two comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$46,456 to \$52,913 or from \$17.11 to \$18.90 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$45,029 or \$17.94 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$72,350. The subject has an improvement assessment of \$64,959 or \$25.88 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on one equity comparable that is located within the same assessment neighborhood code as the subject. The comparable is improved with a two-story, class 2-78 dwelling of frame exterior construction that has 2,052 square feet of living area and is 1 year old. The comparable has a basement with a formal recreation room, central air conditioning, and a two-car garage. The comparable has an improvement assessment of \$72,749 or \$35.45 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

On this limited record, the parties submitted four equity comparables for the Board's consideration that have varying degrees of similarity to the subject in dwelling size and age. The appellant's comparables are more similar in dwelling size to the subject but all are older dwellings. While the board of review comparable is less similar to the subject in dwelling size, but it is identical in age to the subject. These comparables have improvement assessments ranging from \$46,456 to \$72,749 or from \$17.11 to \$35.45 per square foot of living area. The subject has an improvement assessment of \$64,959 or \$25.88 per square foot of living area, which is within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement appears to be equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
