

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Schlossberg
DOCKET NO.: 17-32087.001-R-1
PARCEL NO.: 14-31-414-024-0000

The parties of record before the Property Tax Appeal Board are John Schlossberg, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,520
IMPR.: \$80,776
TOTAL: \$92,296

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story dwelling of masonry exterior construction with 3,076 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a slab foundation, central air conditioning, one fireplace and a two-car garage. The property has a 2,880 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-78 dwellings of masonry exterior construction that range in size from 2,056 to 3,530 square feet of living area and range in age from 4 to 25 years old. The

comparables each have a partial or a full basement with two having a formal recreation room, central air conditioning, and a two-car or a three-car garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$51,400 to \$72,792 or from \$20.62 to \$25.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$69,241 or \$22.51 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$92,296. The subject has an improvement assessment of \$80,776 or \$26.26 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same assessment neighborhood code as the subject. The comparables are improved with two-story and three-story, class 2-78 dwellings of masonry exterior construction that range in size from 3,082 to 3,360 square feet of living area and range in age from 10 to 25 years old. The comparables have full basements with two having a formal recreation room. Each comparable has central air conditioning, three comparable each have one fireplace and three comparables each have a two-car garage. The comparables have improvement assessments ranging from \$86,454 to \$93,703 or from \$26.23 to \$30.26 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their differences in dwelling size or age when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables. These comparables are more similar in age and dwelling size, however, all have basements in contrast to the subject's concrete slab foundation. These comparables have improvement assessments ranging from \$86,454 to \$93,703 or \$26.23 to \$30.26 per square foot of living area. The subject's improvement assessment \$80,776 or \$26.26 per square foot of living area falls below the overall improvement assessment range established by the best comparables in this record and is at the low end of the range on a per square foot basis which is logical due to subject's lack of a basement. After considering adjustments to the comparables for differences including basements when compared to the subject, the Board finds the subject's improvement appears to be equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
