

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Mui
DOCKET NO.: 17-32096.001-R-1
PARCEL NO.: 13-36-427-015-0000

The parties of record before the Property Tax Appeal Board are Stephen Mui, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,905
IMPR.: \$34,161
TOTAL: \$41,066

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 5,431 square feet of living area. The dwelling is approximately 123 years old. Features of the home include a basement finished with an apartment. The property has a 3,069 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family dwellings of masonry exterior construction that range in size from 5,859 to 6,417 square feet of living area. The homes range

in age from 102 to 116 years old. Each comparable has a basement, one with a finished apartment. Comparable #4 has a 3-car garage. The properties have improvement assessments ranging from \$26,128 to \$31,467 or from \$4.07 to \$5.01 per square foot of living area. Based on this evidence, the appellant requested the subject's assessment be reduced to \$25,308 or \$4.66 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$41,066. The subject property has an improvement assessment of \$34,161 or \$6.29 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story or three-story class 2-11 multi-family dwellings of masonry exterior construction that range in size from 4,883 to 5,890 square feet of living area. The homes range in age from 100 to 112 years old. Each comparable has a basement, three of which have finished apartments. Three comparables each have a 2-car garage. The comparables have improvement assessment that range from \$34,134 to \$38,624 or from \$6.29 to \$7.91 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #3 and #4 along with board of review comparable #2 which differ from the subject in dwelling size and/or a lack of finished basement apartment, a feature of the subject property. The Board also gave reduced weight to board of review comparable #4 which is newer and smaller in dwelling size relative to the subject property.

The Board finds the best evidence of assessment equity to be the remaining comparables which have varying degrees of similarity to the subject in age, design, dwelling size and features. These comparables had improvement assessments that ranged from \$28,487 to \$34,758 or from \$4.59 to \$6.65 per square foot of living area. The subject's improvement assessment of \$34,161 or \$6.29 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences with the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
