

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Mui  
DOCKET NO.: 17-32312.001-R-1  
PARCEL NO.: 17-06-202-023-0000

The parties of record before the Property Tax Appeal Board are Stephen Mui, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,975  
**IMPR.:** \$42,340  
**TOTAL:** \$49,315

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 2,904 square feet of living area. The dwelling is approximately 120 years old and features an unfinished basement. The property has a 2,325 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with multi-family class 2-11 dwellings of masonry exterior construction that range in size from 3,328 to 3,717 square feet of living area. Each comparable has an unfinished basement and a 2-car garage. The comparables have improvement

assessments that range from \$42,565 to \$47,527 or for \$11.80 and \$12.79 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$36,184 or \$12.46 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$49,315. The subject property has an improvement assessment of \$42,340 or \$14.58 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with two-story multi-family class 2-11 dwellings of masonry exterior construction that range in size from 2,393 to 2,956 square feet of living area. The homes are either 125 or 127 years old. Each comparable has a basement, one with a finished apartment. Two comparables each have a 2-car garage and one comparable has central air conditioning and two fireplaces. The properties have improvement assessments ranging from \$41,638 to \$50,836 or from \$16.00 to \$19.92 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #2 along with board of review comparable #2 for differences with the subject in dwelling size and/or finished basement apartment a feature the subject lacks. The Board also gave less weight to board of review comparable #3 which has central air conditioning a feature lacking in the subject and other comparables in the record.

The Board finds the best evidence of assessment equity to be the remaining two comparables which are relatively similar to the subject in location, age, dwelling size, basement and most features. These two comparables had improvement assessments of \$42,565 and \$47,296 or for \$12.79 and \$16.00 per square foot of living area. The subject's improvement assessment of \$42,340 or \$14.58 per square foot of living area falls below the two best comparables on an overall basis and is bracketed on a per square foot basis. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
