

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Mui  
DOCKET NO.: 17-32316.001-R-1  
PARCEL NO.: 13-25-428-028-0000

The parties of record before the Property Tax Appeal Board are Stephen Mui, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$7,875  
**IMPR.:** \$22,303  
**TOTAL:** \$30,178

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family dwelling of frame exterior construction with 1,936 square feet of living area. The dwelling is approximately 129 years old. Features of the home include an unfinished basement and a 1-car garage. The property has a 3,150 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with multi-family class 2-11 dwellings of frame exterior construction that range in size from 2,752 to 2,895 square feet of living area. The homes range in age from

117 to 125 years old. Each comparable has a basement with a finished apartment and a 2-car garage. The properties have improvement assessments that range from \$22,181 to \$23,478 or from \$7.88 to \$8.11 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$15,527 or \$8.02 per square foot of living area.

The appellant submitted a copy of the final decision of the board of review disclosing the property has a total assessment of \$30,178. Given the subject's land assessment of \$7,875 as reported by the appellant in the appeal petition, the Board finds the subject had an improvement assessment of \$22,303 or \$11.52 per square foot of living area.

The board of review did not timely submit its "Board of Review Notes on Appeal" or any evidence in support of its assessment of the subject property as required by section 1910.40(a) of the rules of the Property Tax Appeal Board. 86 Ill.Admin.Code §1910.40(a). Therefore, the board of review was found to be in default pursuant to section 1910.69(a) of the rules of the Property Tax Appeal Board. 86 Ill.Admin.Code §1910.69(a).

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the only evidence of assessment equity in the record to be the three comparables submitted by the appellant which are dissimilar to the subject in dwelling size, age and/or finished basement area. These comparables had improvement assessments that ranged from \$22,181 to \$23,478 or from \$7.88 to \$8.11 per square foot of living area. The subject's improvement assessment of \$22,303 or \$11.52 per square foot of living area falls within the range established by the only comparables on an overall basis and above the range on a per square foot basis. The subject's smaller dwelling size, relative to the comparables, is reflected in its higher per square foot improvement assessment. Accepted real estate valuation theory provides that, all things being equal, as the size of the property increases, the per unit value decreases. In contrast, as the size of a property decreases, the per unit value increases.

After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that a reduction in the assessed valuation of the subject property is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
