

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Francesca Inserra  
DOCKET NO.: 17-33465.001-R-1  
PARCEL NO.: 12-15-119-026-0000

The parties of record before the Property Tax Appeal Board are Francesca Inserra, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,606  
**IMPR.:** \$37,762  
**TOTAL:** \$41,368

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family building of masonry exterior construction with 5,994 square feet of building area. The building is approximately 54 years old. Features of the building include six apartments and a full basement. The property has a 6,557 square foot site and is located in Schiller Park, Leyden Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story multi-family buildings of masonry exterior construction ranging in size from 5,434 to 5,994 square feet of building area. The comparables range in age from 53 to

55 years old. Each comparable has six apartments and full basements. The appellant failed to report detailed information on central air conditioning in the grid analysis. The comparables have improvement assessments ranging from \$29,095 to \$37,762 or from \$4.95 to \$6.46 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$35,536 or \$5.93 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,983. The subject property has an improvement assessment of \$43,377 or \$7.24 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story multi-family buildings of masonry exterior construction each consisting of 5,994 square feet of building area. The comparables are either 53 or 55 years old. Each comparable has a full basement with an apartment. The comparables have improvement assessments ranging from \$41,947 to \$43,339 and \$7.00 or \$7.23 per square foot of building area. Based on this evidence, the board of review requested the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board finds the parties' comparables are similar to the subject property in location, design, exterior construction, age, dwelling size, basement and most features. These comparables have improvement assessments ranging from \$4.95 to \$7.23 per square foot of building area. The subject's improvement assessment of \$7.24 per square foot of building area exceeds the assessments of the best comparables in this record. The Board finds that the appellant's comparable #2 at \$6.30 per square foot of building area is the one best comparable which is identical to the subject in most property characteristics, including age and dwelling size, unlike the other comparables in this record. Based on this record, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
