

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bart Kochanczyk
DOCKET NO.: 17-33466.001-R-1
PARCEL NO.: 12-16-204-044-0000

The parties of record before the Property Tax Appeal Board are Bart Kochanczyk, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,630
IMPR.: \$41,442
TOTAL: \$45,072

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family building of masonry exterior construction with 5,743 square feet of building area. The building is approximately 43 years old. Features of the building include six apartments, a concrete slab foundation and central air conditioning. The property has a 6,600 square foot site and is located in Schiller Park, Leyden Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story multi-family buildings of masonry exterior construction ranging in size from 4,406 to 4,486 square feet of building area. The comparables range in age from 50 to

52 years old. Each comparable has four or five apartments, a full basement and central air conditioning¹. One comparable has one fireplace. The comparables have improvement assessments ranging from \$24,148 to \$28,755 or from \$5.48 to \$6.41 per square foot of building area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$35,050 or \$6.10 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$45,072. The subject property has an improvement assessment of \$41,442 or \$7.22 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story multi-family buildings of masonry exterior construction ranging in size from 4,928 to 5,994 square feet of building area. The comparables range in age from 43 to 54 years old. Each comparable has a full basement with three having an apartment. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$37,032 to \$43,377 or from \$7.22 to \$7.57 per square foot of building area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables and the board of review's comparables #2 through #4 due to their dissimilar two-story designs, full basements with finished area, and/or significantly smaller dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity is the board of review's comparable #1 as it is identical to the subject property in its three-story design, exterior construction, age, basement and most features. It is nearly identical to subject in building area and location as it is located on the same block/street with a nearly identical property index number. The board of review's comparable #1 has an improvement assessment of \$7.72 per square foot of building area. The subject's improvement assessment of \$7.72 per square foot of building area matches the² assessment of the best comparable in this record and is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the

subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
