

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 2701 Haddon, LLC  
DOCKET NO.: 17-34495.001-R-1  
PARCEL NO.: 16-01-404-023-0000

The parties of record before the Property Tax Appeal Board are 2701 Haddon, LLC, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,750  
**IMPR.:** \$30,505  
**TOTAL:** \$37,255

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story building of masonry exterior construction with 3,921 square feet of building area. The building is approximately 120 years old, has a full unfinished basement, and a two-car detached garage. The property has a 3,000 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis with four equity comparables which are located within the same neighborhood code as the subject. The comparables are improved with similar class 2-11 buildings ranging in size from 3,546 to 4,221 square feet of building area. The buildings range in age from 109 to 125 years old. Three comparables have a full basement with two having an apartment and either a one-car, a two-car

or a four-car garage. One comparable has a concrete slab foundation. The comparables have improvement assessments ranging from \$21,063 to \$26,095 or from \$4.99 to \$6.71 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$23,957 or \$6.11 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,255. The subject property has an improvement assessment of \$30,505 or \$7.78 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted a grid analysis with four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with similar class 2-11, three-story buildings of masonry exterior construction ranging in size from 3,192 to 3,828 square feet of building area. The buildings range in age from 105 to 113 years old. Each comparable has a partial or full unfinished basement and a two-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$34,682 to \$37,152 or from \$9.06 to \$11.18 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3, and #4 due their dissimilar foundation types and the board of review comparables #1 and #2 due to their considerably smaller building sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These comparables are similar to the subject in location, design, exterior construction, age, building size, foundation, and other features. These three comparables have improvement assessments ranging from \$25,879 to \$37,152 or from \$6.20 to \$9.88 per square foot of building area. The subject's improvement assessment of \$30,505 or \$7.78 per square foot of building area falls within the range of the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
