

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patricia Miller
DOCKET NO.: 17-36139.001-R-1
PARCEL NO.: 13-22-202-006-0000

The parties of record before the Property Tax Appeal Board are Patricia Miller, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,862
IMPR.: \$31,680
TOTAL: \$39,542

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 1,980 square feet of living area. The dwelling is approximately 114 years old. Features of the home include an unfinished basement and a fireplace. The property has a 5,616 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-05 dwellings of frame or masonry exterior construction that range in size from 2,046 to 2,142 square feet of living area. The homes are 102 or 127 years old. Each comparable has a basement, one with finished area. Two comparables have central air

conditioning and a fireplace. Each comparable has a 2-car garage. The comparables have improvement assessments ranging from \$24,371 to \$28,873 or \$11.91 and \$13.75 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$24,790 or \$12.52 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,997. The subject property has an improvement assessment of \$36,135 or \$18.25 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story class 2-05 dwellings of frame exterior construction that range in size from 1,792 to 1,992 square feet of living area. The homes range in age from 107 to 127 years old. Each comparable has a basement, two with finished area. One property has central air conditioning, two each have one fireplace and each comparable has a 2-car garage. The comparables have improvement assessment that range from \$39,062 to \$42,420 or from \$20.24 to \$23.31 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #3 along with board of review comparables #2 and #3 due to their finished basement feature when compared to the subject's unfinished basement.

The Board finds the best evidence of assessment equity to be the remaining comparables which are similar to the subject in location, age, design and dwelling size. Each of these best comparables features a 2-car garage considered superior to the subject, which lacks a garage. This suggests a downward adjustment to these comparable properties to make them more equivalent to the subject. These four comparables had improvement assessments that ranged from \$24,371 to \$41,063 or from \$11.91 to \$21.94 per square foot of living area. The subject's improvement assessment of \$36,135 or \$18.25 per square foot of living area falls near the higher end of the range established by the best comparables in this record on a per square foot basis. However, after considering adjustments to the comparables for their superior features compared to the subject, such as garages and central air conditioning, the Board finds that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
