

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Adams Building Account
DOCKET NO.: 17-36173.001-R-1
PARCEL NO.: 15-13-209-001-0000

The parties of record before the Property Tax Appeal Board are Adams Building Account, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,062
IMPR.: \$48,960
TOTAL: \$53,022

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 4,800 square feet of living area. The dwelling is approximately 94 years old and features an unfinished basement. The property has a 6,250 square foot site and is located in Forest Park, Proviso Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family dwellings of masonry exterior construction that range in size from 4,851 to 6,336 square feet of living area. The homes range in age from 30 to 53 years old. Each comparable has a basement with a finished apartment. The

comparables have improvement assessments ranging from \$37,270 to \$47,998 or from \$7.47 to \$7.81 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$36,624 or \$7.63 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$61,092. The subject property has an improvement assessment of \$57,030 or \$11.88 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables, two located in the same city as the subject and two located in a different city than the subject. The comparables are improved with two-story or three-story class 2-11 multi-family dwellings of stucco or masonry exterior construction that range in size from 3,927 to 5,420 square feet of living area. The homes range in age from 87 to 99 years old. Three comparables have an unfinished basement and one has a concrete slab foundation. One comparable has central air conditioning and one comparable has a 2-car garage. The comparables have improvement assessments that range from \$38,696 to \$47,731 or from \$8.81 to \$10.21 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to differences in dwelling size and/or age when compared to the subject. The Board also gave reduced weight to the board of review's comparables #3 and #4 which are located in a different city than the subject property.

The Board finds the best evidence of assessment equity to be the remaining two comparables which have varying degrees of similarity to the subject in location, age, design, dwelling size and features. These comparables had improvement assessments of \$41,923 and \$47,731 or for \$10.21 and \$8.81 per square foot of living area. The subject's improvement assessment of \$57,030 or \$11.88 per square foot of living area is above the two best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
