

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Frank Pailadino
DOCKET NO.: 17-39045.001-R-1
PARCEL NO.: 27-16-205-001-0000

The parties of record before the Property Tax Appeal Board are Frank Pailadino, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,776
IMPR.: \$40,386
TOTAL: \$42,162

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of masonry exterior construction with 3,904 square feet of building area. The building is approximately 46 years old and features a full unfinished basement. The property has a 2,450 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on six comparables located within the same assessment neighborhood code as the subject. The comparables are described as class 2-11, two-story multi-family buildings of masonry, frame or frame and masonry exterior construction with each having 3,472 square feet of building area. The buildings range in age from 44 to 47 years old. Three comparables have partial unfinished basements,

three comparables have crawl space foundations, and four comparables each have a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$32,741 to \$34,269 or from \$9.43 to \$9.87 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$37,691 or \$9.65 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment of \$42,162. The subject has an improvement assessment of \$40,386 or \$10.34 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four comparables located within the same assessment neighborhood code as the subject. The comparables are described as class 2-11, two-story multi-family buildings of masonry exterior construction with each having 3,300 square feet of building area and are 46 years old. The comparables have partial or full unfinished basements. The comparables have improvement assessments ranging from \$38,148 to \$38,917 or from \$11.56 to \$11.79 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains ten equity comparables for the Board's consideration. The Board gave less weight to appellant's comparables #1, #2, #3, #4 and #6 which have crawl space foundations and/or garages unlike the subject. The Board finds the best evidence of assessment equity to be appellant's comparable #5 and the board of review comparables which have smaller dwelling sizes but are similar to the subject in location, age and features. These comparables have improvement assessments ranging from \$32,984 to \$38,917 or from \$9.50 to \$11.79 per square foot of building area. The subject has an improvement assessment of \$40,386 or \$10.34 per square foot of building area, which falls within the range on an improvement assessment per square foot basis established by the best comparables in this record but falls above on an overall improvement assessment basis. The subject's higher improvement assessment is reasonable due to subject's larger dwelling size. Therefore, after considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement appears to be equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
