

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sanad Abdala & Sami Ibrahim
DOCKET NO.: 17-39052.001-R-1
PARCEL NO.: 27-13-313-017-0000

The parties of record before the Property Tax Appeal Board are Sanad Abdala and Sami Ibrahim, the appellants, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,000
IMPR.: \$29,634
TOTAL: \$35,634

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,937 square feet of living area. The dwelling is approximately 25 years old. Features of the home include a full unfinished basement, central air conditioning, one fireplace and an attached 2.5-car garage. The property has a 10,000 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellants submitted information on four equity comparables improved with two-story, class 2-78, dwellings of frame and masonry exterior construction ranging in size from 3,039 to 3,470 square feet of living area. The homes range in age from 21 to 24 years old. Each property has a full unfinished basement, central air

conditioning, one fireplace, and a 2-car, 2.5-car, or a 3-car garage. Each comparable has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$28,354 to \$32,287 or from \$8.72 to \$9.33 per square foot of living area. The appellants requested the subject's improvement assessment be reduced to \$26,869.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$35,634. The subject property has an improvement assessment of \$29,634 or \$10.09 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story, class 2-78, dwellings of masonry exterior construction ranging in size from 2,665 to 2,937 square feet of living area. The homes are 23 or 27 years old. Each property has a full unfinished basement, central air conditioning, one fireplace, and a 2-car, 2.5-car, or 3-car garage. Each comparable has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$31,556 to \$39,642 or from \$10.96 to \$14.88 per square foot of living area.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight comparables submitted by the parties to support their respective positions. The comparables all have the same classification code and neighborhood code as the subject property. Each property is improved with a home that is similar to the subject in style, age, and most features. The Board gives less weight to appellants' comparables #2 and #3 as well as board of review comparable #2 due to the fact these homes are larger or smaller than the subject dwelling and not as similar in size to the subject dwelling as the remaining comparables. The Board gives most weight to appellants' comparables #1 and #4 as well as board of review comparables #1, #3 and #4, which are most similar to the subject dwelling in size. These comparables have improvement assessments that range from \$28,354 to \$33,579 or from \$8.72 to \$11.43 per square foot of living area. The subject's improvement assessment of \$29,634 or \$10.09 per square foot of living area falls within the range established by the best comparables in this record and is well supported. Based on this record the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
