

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Hamouda Jaber
DOCKET NO.: 17-39077.001-R-1
PARCEL NO.: 27-23-415-012-0000

The parties of record before the Property Tax Appeal Board are Hamouda Jaber, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,353
IMPR.: \$17,712
TOTAL: \$22,065

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry construction with 1,471 square feet of living area. The dwelling is approximately 32 years old. Features of the home include a partial basement with a formal recreation room, central air conditioning and a two-car attached garage. The property has a 9,675 square foot site and is located in Tinley Park, Orland Township, Cook County. The subject is classified as a class 2-34 multi-level property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on four comparable sales classified as class 2-34 properties improved with dwellings of frame or frame and masonry construction ranging in size from 1,084 to 1,763 square feet of living area. The dwellings range in age from 27 to 39 years old. Each property has a partial basement with a recreation room, central air conditioning, and a two-car or

a three-car attached garage. One comparable has a fireplace. The comparables have sites ranging in size from 7,920 to 11,550 square feet of land area. Each property has the same assessment neighborhood code as the subject property. The sales occurred from February 2016 to May 2017 for prices ranging from \$162,100 to \$275,000 or from \$123.43 to \$164.34 per square foot of living area, including land. The appellant requested the subject's assessment be reduced to \$21,818.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$24,637. The subject's assessment reflects a market value of \$246,370 or \$167.48 per square foot of living area, including land, when applying the Cook County Real Property Assessment Classification Ordinance level of assessment for class 2-34 property of 10%.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales improved with multi-level dwellings of frame and masonry construction ranging in size from 1,057 to 1,162 square feet of living area. The homes range in age from 27 to 41 years old and have the same classification code as the subject property. Each property has a partial basement with a recreation room, central air conditioning, and a 2-car or a 2.5-car garage. These properties have sites ranging in size from 7,507 to 9,375 square feet of land area. The comparables have the same assessment neighborhood code as the subject property. The sales occurred from May 2015 to June 2016 for prices ranging from \$194,000 to \$249,500 or from \$183.54 to \$215.13 per square foot of living area, including land.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted information on eight comparable sales improved with dwellings relatively similar to the subject in location, style, age and features to support their respective positions. Less weight is given appellant's comparable sale #1 due to differences from the subject in size. Less weight is given the board of review comparable sales due to differences from the subject dwelling in size and the fact that comparables #1, #2 and #4 sold in 2015, not proximate in time to the assessment at issue. The three remaining comparables sold for prices ranging from \$177,000 to \$275,000 or from \$123.43 to \$164.34 per square foot of living area, including land. The subject's assessment reflects a market value of \$246,370 or \$167.48 per square foot of living area, including land, which is above the range established by the best comparable sales in this record on a square foot basis. Based on this evidence the Board finds a reduction in the assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
